

Car Park Application - Approx. of 90 square metres
Positive Endorsement From The Council
Laid in March 2011

Laying of the JakMatGeocell:

1. Prepare the base ground by removing overburden to form an even surface

2. JakMats laid using interlocking mechanism

3. Adding P-gravel layer on top of JakMats

4. P-gravel compact into the honeycomb cells

5. A small amount of excess for compaction and settlement

6. John does a lot of turning on his driveway and very pleased with the result (Sept 2011)

JakMatGeocell *The sustainable driveway and paving alternative*
